## OBJECTIVE

Aspiring Software Engineer with a strong foundation in Data Structures, Algorithms, Full-Stack Development, and Cloud Computing. Passionate about building scalable software systems to solve real-world problems. Eager to contribute to impactful projects while continuously growing in technical and collaborative environments.

## EDUCATION

|                                                                                                    |                                            |
|----------------------------------------------------------------------------------------------------|--------------------------------------------|
| <b>Keshav Memorial Institute of Technology</b><br>Bachelor of Technology in Information Technology | Nov. 2022 – May 2026<br>CGPA: 9.00         |
| <b>Narayana Junior College</b><br>Class 12                                                         | Apr. 2020 – Jul. 2022<br>Percentage: 97.8% |

## EXPERIENCE

- **Full Stack & UI/UX Intern** - WiseMango May 2025–June 2025, Remote
  - Collaborated on the development of a scalable full-stack web platform, enhancing performance and user interaction through **optimized backend workflows** and **responsive frontend components**.
  - Streamlined user experience by implementing intuitive UI/UX designs and automating manual processes, leading to **increased user retention** and **improved operational efficiency across the platform**.
- **SWE Intern** - Apptmyz June 2025–Present
  - **Architected and maintained** a high-performance full-stack application using **Angular** and **Spring Boot**, leading to a **30% improvement in load times** and a measurable boost in **user engagement and satisfaction**.
  - **Enhanced platform reliability and scalability** through rigorous **unit testing, automation, and performance tuning**, resulting in a **25% reduction in production issues** and **faster deployment cycles**.

## TECHNICAL SKILLS

- **Languages:** C/C++, Python, Java, JavaScript
- **Web:** HTML, CSS, Node.js, React.js, Angular.js, Express.js, Spring, Flask, Next.js, Bootstrap, Tailwind,
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Docker, Postman, Tableau, Unix/Linux,
- **Core Competencies:** Data Science, ML, Data Analysis, Full Stack Development, OOPS, LLM, Data Structures and Algorithms
- **Coursework:** Software Engineering, Computer Networks, OS, DBMS
- **Cloud Technologies:** AWS, Google Cloud (GCP)

## PROJECTS

- **Review Bot** — *React.js, Express.js, MongoDB, Gen AI, LLM, Flask, Python* [GitHub Link](#) **October 2024**  
Developed a customized Full Stack Application for summarizing product reviews from multiple e-commerce platforms.  
Utilized Pre-Trained and Fine-Tuned **LLAMA-3.1** to improve response accuracy by **30%** and increased training accuracy by **15%**.  
Developed dynamic **React** pages for better user interaction and authentication using **JWT & Google OAuth**.
- **Registration Info LLM** — *React.js, Express.js, MongoDB, Gen AI, LLM, Flask, Python* [GitHub Link](#) **March 2024**  
Developed a customized **LLM component** for the Registration Department's service platform.  
Utilized **Retrieval-Augmented Generation (RAG)** to improve response accuracy by **18%**.  
Developed dynamic **React** pages for better user interaction and authentication using **JWT & SMTP**.

## ACHIEVEMENTS AND CERTIFICATIONS

- Consistently ranked within the **top 0.5% academically across all semesters**.
- Solved over 650 problems on [LeetCode](#) and hold **1650+ rating (Top 8%)** on LeetCode for competitive programming.
- Recognized as a topper (**Top 5%**) with a **Silver Medal** in **Joy of Computing in Python** from **IIT Madras**, scoring **75%**.
- Recognized as a topper (**Top 5%**) with a **Silver Medal** in **Deep Learning** from **IIT Madras**, scoring **79%**.
- Recognized as a topper (**Top 5%**) with a **Silver Medal** in **Cloud Computing** from **IIT Kharagpur**, scoring **70%**.
