OBJECTIVE

Aspiring Software Engineer with strong foundations in Data Structures, Algorithms, Full-Stack Development, and Cloud Computing. Passionate about solving real-world problems using scalable software systems. Seeking to contribute to high-impact projects at Google while growing technically and collaboratively.

EDUCATION

Keshav Memorial Institute of Technology Bachelor of Technology in Information Technology	Nov. 2022 – May 2026 CGPA: 9.00
Narayana Junior College Class 12	Apr. 2020 – Jul. 2022 Percentage: 97.8%

EXPERIENCE

- **Full Stack & UI/UX Intern** - WiseMango May 2025–Present, Remote
 - Designed and developed **Klype**, a full stack web application that scrapes LinkedIn posts and generates personalized content prompts for users, significantly improving their engagement and content creation efficiency.
 - Automated repetitive LinkedIn tasks and delivered an intuitive UI/UX, resulting in measurable productivity gains and positive user feedback for the platform.

TECHNICAL SKILLS

- **Languages:** C/C++ , Python, Java, JavaScript
- **Web:** HTML, CSS, Node.js, React.js, Express.js, Flask, Next.js, Bootstrap, Tailwind
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Docker, Postman, Tableau, Unix/Linux, Weka, Salesforce CRM
- **Core Competencies:** Data Science, ML, Data Analysis, Full Stack Development, OOPS, LLM, Data Structures and Algorithms
- **Coursework:** Software Engineering, Computer Networks, OS, DBMS
- **Cloud Technologies:** AWS, Google Cloud (GCP), Azure

PROJECTS

- **Review Bot** — *React.js, Express.js, MongoDB, Gen AI, LLM, Flask, Python* [GitHub Link](#) **October 2024**
 - Developed a customized Full Stack Application for summarizing the product reviews from multiple e-commerce platforms.
 - Utilized Retrieval-Augmented Generation (RAG) to improve response accuracy by 18%.
 - Developed dynamic React pages for better user interaction and authentication using JWT & SMTP.
- **Registration Info LLM** — *React.js, Express.js, MongoDB, Gen AI, LLM, Flask, Python* [GitHub Link](#) **March 2024**
 - Developed a customized LLM component for the Registration Department's service platform.
 - Utilized Retrieval-Augmented Generation (RAG) to improve response accuracy by 18%.
 - Developed dynamic React pages for better user interaction and authentication using JWT & SMTP.
- **AI/ML Powered Chatbot for Namami Gange** — *JavaScript, MongoDB, Python, Flask* [GitHub Link](#) **October 2023**
 - Created an AI-powered chatbot, mascot (Chacha Chaudhary), and digital avatar to promote Namami Gange.
 - Conducted user testing and feedback sessions to enhance chatbot functionality.
 - Designed an engaging UI that appeals to children and encourages interaction.

ACHIEVEMENTS AND CERTIFICATIONS

- Consistently ranked within the **top 0.5% academically across all semesters**.
- Solved over 650 problems on [LeetCode](#) and hold 1650+ rating (Top 11%) on LeetCode for competitive programming.
- Recognized as a topper (Top 5%) with a **Silver Medal in Problem Solving Through Programming in C** from IIT Kharagpur, scoring 78%.
- Recognized as a topper (Top 5%) with a **Silver Medal in The Joy of Computing in Python** from IIT Madras, scoring 84%.
- Completed a **Deep Learning using Python** course at IIT Hyderabad in February 2023.
